

REMARKS

Prior to examination, Applicant has amended the specification and Abstract to add proper headings and to conform the application to proper US format. Claims 1-20 have been canceled and rewritten as new Claims 21-41 in an effort to particularly point out and distinctly describe the present invention. To that end, it is believed no new matter has been added. Entry of this Amendment is respectfully requested.

If the Examiner wishes to expedite disposition of the above-captioned patent application, he is invited to contact Applicant's representative at the telephone number below.

The Director is hereby authorized to charge any additional fees associated with this communication or credit any overpayment to Deposit Account No. 50-0289.

Respectfully submitted,
